

Location: Sunset Center – Carpenter Hall –
San Carlos & 9th

Date: Tuesday, January 14, 2020

Time: 7:00 pm

The Carmel Advisory Board invites you to a forum on: Climate Change

While climate change is global, the effects and responses occur substantially at the local level. The policies Carmel adopts now will determine, in almost every aspect, how the City will function in the future.

Please join us for a panel discussion and question-and-answer period moderated by former Congressman Sam Farr on the risks we face, and what the other cities and stakeholders are doing to address the impacts of climate change on our region.

Panel Members Consist of:

Tiffany Wise-West, PH.D., Sustainability & Climate Action Manager for the City of Santa Cruz

David Revell, Ph.D., Climate Scientist and founding member of Revell Coastal

Carrie Theis, General Manager, Monterey Peninsula Regional Park District

Barbara Buikema, General Manager of Carmel Area Wastewater District

Member of the Carmel-by-the-Sea City Council and Co-Chair of Carmel's Climate Change Committee

Student, Member of Carmel High School's Environmental Club

Information packets will be available from each speaker, as well as copies of the Carmel Advisory Board's report. *The Impact of Climate Change on Carmel-by-the-Sea's Natural Resources and Public Safety* that was presented to the Carmel-by-the-Sea City Council on June 4, 2019.
